EXPERIENCE

Community Moderator

June 2023 – Present

KodeKloud

Singapore (Remote)

- Facilitate community initiatives, driving engagement and organizing events.
- Nurtured a positive and collaborative DevOps community of 100K members.
- Moderate discussions and ensure compliance with guidelines.

Machine Learning Intern

July 2023 – Sep 2023

Defence Research And Development Organisation (DRDO)

IRDE, Dehradun, India

- Applied image processing techniques to optimize data for applications, enhancing model performance and improving image quality and clarity.
- Leveraged optics and state-of-the-art methods to preprocess images, ensuring optimal data input for AI-based applications.

Software Engineer Intern

Aug 2022 – Sep 2022

Renovation Software

Gurugram, Haryana

- Led the analysis and enhancement of application features, driving improvements for enhanced functionality.
- Spearheaded the design and integration of back-end systems, leveraging Flask to seamlessly incorporate Rest APIs.

DevRel and CM Intern

Jan 2022 – June 2022

Data On Kubernetes Community

San Francisco, US (Remote)

- Led the design team, creating content, animations, and graphics for community growth. ([Link](#))
- Collaborated with the Transcript Team to finalised 10+ scripts with flawless accuracy.
- Authored and published growth topics/blogs to drive engagements.
- Contributed to development of technologies and open-source projects focused on running data on Kubernetes.

PROJECTS / CONTRIBUTIONS

CircleEver | Android Application | Kotlin and Jetpack Compose

Link: [CircleEver](#)

- Award-winning Android app, connecting university students with diverse societies. Featured in local newspaper.

3DVisioGen | From 2D image to 3D Models | Computer Vision

Link: [VisioGen](#)

- Engineered a 3D reconstruction system with SFM, revolutionizing model creation transforming 2D image to 3D models for use in architecture, robotics, and virtual reality.

Automation | Remote Control System | Arduino, Relay, Sensors and Bluetooth Module

Link: [RC System](#)

- Real-time project empowering farmers to remotely control and power tools, mitigating unpleasant weather.

Open Source Contributions | Open Source Softwares

Link: [Contributions](#)

- Contributed to 30+ repositories with more than 500 commits merged.

TECHNICAL SKILLS

Languages & Technologies: Python, C/C++, Kotlin, JavaScript, Golang, MATLAB, ML, Android, Figma, UI/UX

Tools & Platforms: Docker, Kubernetes, Git/GitHub, CI/CD, Monitoring, GCP, AWS, Heroku, Postman

Lib/Frameworks & Databases: Flask, Django, Tkinter, NodeJS, ReactJS, MySQL, Cloud Databases, MongoDB

Design & Core Concepts: Adobe Suite (Animate, Photoshop, After Effects, Illustrator, InDesign), OOPS, DBMS, DSA

EDUCATION

Deenbandhu Chhotu Ram University Of Science And Technology

Bachelor of Technology – Electronics And Communication (Honours in Machine Learning)

2020 – 2024

ACHIEVEMENTS

- Winner of the Machine Learning Track in **Google Devfest**.
- Hosted events on Git, GitHub and Open Source.
- Delivered a talk at **DOK Students Day**. ([Link](#))
- Certified in Google Cloud Ready Program. ([Link](#))
